POLICIES AND PROCEDURES

NUMBER: TUHS-IS-0314
TITLE: Proactive Breach and Vulnerability Monitoring Response
EFFECTIVE DATE: 09-01-2014
LAST REVISED: 05-28-2019
LAST REVIEWED: 05-28-2019
REFERENCES: TUHS-IS-0310, Systems Access Management Policy
TUHS Corporate Compliance Program
ATTACHMENTS: N/A

PURPOSE
To maintain the security of the TUHS environment, Information Security will work with vendors,
external monitoring agencies, Biomedical Engineering, Compliance and Risk Management to craft proper
mitigations to issues discovered across all TUHS entities.

POLICY
Information Security will work with the following departments and resources to receive information on
information systems and computerized biomedical device vulnerabilities:

<table>
<thead>
<tr>
<th>Vulnerability Type or Target</th>
<th>Resource</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biomedical Device or Specialized Health IT Applications (PACS, etc.)</td>
<td>Emergency Care Research Institute (ECRI) Databases and Alerts</td>
</tr>
<tr>
<td>Reported privacy and security breaches</td>
<td>Email distribution membership: REN-ISAC, NH-ISAC, Cyber Health Working Group, Philly Cyber FBI, InfraGard</td>
</tr>
<tr>
<td>Breaches affecting 500 or more individuals (per HITECH)</td>
<td>HHS OCR Website (<a href="https://ocrportal.hhs.gov/ocr/breach/breach_report.jsf">https://ocrportal.hhs.gov/ocr/breach/breach_report.jsf</a>)</td>
</tr>
<tr>
<td>Vulnerabilities of systems running Linux</td>
<td>BUGTRAQ, Red Hat Network, on premise vulnerability scanning. Full Disclosure security mailing list (<a href="https://seclists.org/fulldisclosure/">https://seclists.org/fulldisclosure/</a>)</td>
</tr>
<tr>
<td>Other reported software vulnerabilities</td>
<td>ECRI Databases, ECRI Alerts, BUGTRAQ mailing</td>
</tr>
</tbody>
</table>

NOTE:
Refer to the on-line version of this policy for the most current information. Printed copies of this policy may not be current.

Use of this document is limited to Temple University Health System staff only. It is not to be copies or distributed outside of the institution without Administrative permission.

<table>
<thead>
<tr>
<th><strong>Vulnerabilities of systems running</strong></th>
<th><strong>Oracle</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Vendor reports,</strong></td>
<td><strong>Oracle Security Alerts mailing list, BUGTRAQ mailing list (<a href="https://seclists.org/full">https://seclists.org/full</a> disclosure/)</strong></td>
</tr>
</tbody>
</table>

Information Security is responsible for:

- Responding to security breaches or vulnerabilities identified at TUHS:
  - Notify affected staff, including but limited to:
    - Director of Clinical Engineering, TUHS
    - IS&T Directors and Managers
    - Director, Risk Management, TUH
    - Director, Risk Management, Jeane/FCCC Campus
    - Director, IS&T Technical Services
    - Director, IS&T Customer Support
    - Corporate Compliance and Privacy Officer, TUHS
    - Chief Information Officer, TUHS
    - Staff, as needed
  - Develop mitigation plans with the appropriate staff to reduce or eliminate the impact of the vulnerabilities for affected applications.
  - Execute mitigation plans with the involved parties.
  - Verify mitigation of the issue.
  - Communicate risks to the Corporate Compliance and Privacy Officer and Chief Information Officer that cannot be mitigated in accordance with agreed-upon IT policies and procedures.

Compliance to Related Standards and Regulations

- Paragraph 164.308(a)(2) of the HIPAA Security Rule requires organizations to identify a security official responsible for the development and implementation of the policies and procedures required by this subpart for the entity. The CISO of TUHS fulfills the role of the responsible security official.

- Paragraph 164.308(a)(6)(i) of the HIPAA Security Rule requires organizations to implement policies and procedures to address security incidents.

- Paragraph 164.308(a)(6)(ii) of the HIPAA Security Rule requires organizations to identify and respond to suspected or known security incidents, mitigate, to the extent practicable, the harmful effects of security incidents, and document the incidents and their outcomes.

**NOTE:**

Refer to the on-line version of this policy for the most current information. Printed copies of this policy may not be current.

Use of this document is limited to Temple University Health System staff only. It is not to be copies or distributed outside of the institution without Administrative permission.
